Dear Dr. Lederberg:

594 A psychiatrist who attended a meeting conducted by the Office of Early Childhood Development, Texas Department of Community Affairs, mentioned your plea to outlaw handguns in "Prometheus to Frankenstein."

A check with a couple of libraries in Austin has failed to turn up the article in any of the standard indexes. Could you please tell us where this article has been printed, or could you send us a copy of your manuscript.

We are most eager to read the article and hope to hear from you soon.

Sincerely yours,

Barbara Langham

? { I have also had a communication from Dr. B. Sutton directly, and have responded to that. But she did not mention guns
